

Abrahan Chaurio | BI & Data Analyst

Spain | +34 643 06 83 74 | abrahamco@gmail.com

PROFILE

BI & Data Analyst with 8+ years of experience in SQL, ETL, and data visualization through Power BI Dashboards, focused on optimizing data workflows and enabling data-driven decisions. Proven track record of recovering 12M ARS in business value, automating processes (80% faster), and improving data accuracy (30% fewer incidents). Certified in Power BI and DAX (Platzi), with data modeling and stakeholder management expertise.

EXPERIENCE

Atos, Argentina - Systems Analyst - May 2020 - July 2024

- Identified and resolved critical data inconsistencies within the billing process, implementing preventive, corrective, and contingency measures for large-scale incidents, which led to the recovery of over ARS 12 million in business value.
- Partnered with Business Intelligence and Billing teams to resolve critical data errors, reducing daily incidents to 1–2 per week and significantly improving the accuracy of key dashboards and reports used for decision-making.
- Automated manual processes for updating pricing and implementing new services using SQL and scripting, resulting in an 80% reduction in operational time and eliminating human errors.
- Designed and integrated SQL-based solutions focused on Billing and BI processes, improving data traceability and quality for key business operations.
- Contributed to customer migration projects from legacy systems, participating in analysis, development, and testing phases to ensure stable transitions and prevent the loss of critical information.
- Standardized Development, Testing, and Production environments through key database and server migrations, mitigating deployment risks, and ensuring data integrity.
- Quickly integrated into the internal team as an external resource, participating seamlessly in cross-functional and corporate projects, and collaborating effectively with multiple business areas.

Increase, Argentina - Integration Analyst - Dec 2019 - Feb 2020

- Led 12+ API integrations, achieving a 100% success rate.
- Cut technical query resolution time by 30% in sales support.
- Built 4 custom ERP integrations, streamlining operations.
- Boosted onboarding rate by 15% via improved documentation/support..
